

Co-author declaration for the following joint paper:

This declaration should describe the research contribution of the candidate, the main supervisor (where he/she is an associate author) and the other two most central authors (the corresponding author must be among them). If applicable, the contributions from other PhD candidates who have or intend to include the paper in a thesis should be described. Contributions from master students should be described.

Authors: *Jaime A. Castro-Mondragon, Rafael Riudavets-Puig, Ieva Rauluseviciute, Roza Berhanu Lemma, Laura Turchi, Romain Blanc-Mathieu, Jeremy Lucas, Paul Boddie, Aziz Khan, Nicolás Manosalva Pérez, Oriol Fornes, Tiffany Y. Leung, Alejandro Aguirre, Fayrouz Hammal, Daniel Schmelter, Damir Baranasic, Benoit Ballester, Albin Sandelin, Boris Lenhard, Klaas Vandepoele, Wyeth W. Wasserman, François Percy and Anthony Mathelier*

Title: *JASPAR 2022: the 9th release of the open-access database of transcription factor binding profiles*

Journal: *Nucleic Acids Research*

Ieva Rauluseviciute's independent contribution:

Co-first author, PhD candidate

Experimental and computational TF-DNA interaction data mining from repositories and literature. Data processing. Manual curation of the motifs and their metadata, revision of the existing motif metadata. Update and development of the motif discovery pipeline to obtain candidate motifs for manual curation. Computation and revision of matrix clusters. Update of the JASPAR website content. Writing the manuscript.

Jaime A. Castro-Mondragon

Co-first author

Experimental and computational TF-DNA interaction data mining from repositories and literature. Data processing. Manual curation of the motifs and their metadata. Update and development of the motif discovery pipeline to obtain candidate motifs for manual curation. Computation of matrix clusters. Writing the manuscript.

Rafael Riudavets-Puig

Co-first author

Experimental and computational TF-DNA interaction data mining from repositories and literature. Data processing. Manual curation of the motifs and their metadata. Update and development of the motif discovery pipeline to obtain candidate motifs for manual curation. Computation of transcription factor flexible models, matrix clusters, familial binding profiles, genome browser tracks. Update of the JASPAR website content. Writing the manuscript.

Anthony Mathelier

Main supervisor, Corresponding author

Supervision and project management. Coordination with international collaborators. Writing the manuscript.

Has this paper been, or will this paper be part of another doctoral degree thesis?

Yes: ☒ No:

If yes, elaborate: this article was included in Rafael Riudavets-Puig's doctoral thesis, who is a co-first author of this publication.

Contributions from master students: None

Do you verify that **Ieva Rauluseviciute** has contributed to this joint paper as described above?

Yes: ☒ No:

If no, specify:

Co-author's signatures:

Ieva Rauluseviciute

Jaime A. Castro-Mondragon

Rafael Riudavets-Puig

Anthony Mathelier
